## Local Substation Project Information

## Project Update

### Idylwood Substation Construction

In an effort to keep you informed, we want to provide an update on construction at the Idylwood Substation on Shreve Road.

Starting in May 2018, construction activity will increase on the Shreve Road side of the substation as our crews and contractors prepare a safe foundation for construction. This process, known as sheeting and shoring, is completed by driving metal sheeting into the ground. During this time, an increase in noise and vibration is possible. Construction for this phase of work is scheduled to last approximately three-to-four weeks.

We appreciate your patience as construction continues on this important project. We will continue to provide updates via the project website at [www.DominionEnergy.com/shreve](http://www.DominionEnergy.com/shreve).

If you have any questions, you can reach us at 888-291-0190 or via email at [powerline@dominionenergy.com](mailto:powerline@dominionenergy.com).
