Idylwood-Tyson's 230 kV Underground Electric Transmission Project

Use your iPhone camera or the QR reader app on other smartphones to visit the project page on our website.

AT DOMINION ENERGY, we are committed to working safely and courteously in the communities we serve. You are receiving this postcard because we would like to provide an update on the Idylwood-Tyson's Underground Electric Transmission Line Project. In April 2020, we received the necessary permits to begin construction on several phases of the open trenching portion of the project.

Open trenching involves excavating earth along a predetermined path and installing a series of safety measures, including manholes, so transmission cable can be securely buried underground. This work will begin at our Tyson's Substation on Tyco Road and continue to International Drive and Gallows Road until it meets the Washington and Old Dominion (W&OD) trail.

We anticipate receiving permits for the remaining phases of the project in the coming weeks and months. Most open trenching work will take place at night to minimize traffic impacts. We invite you to follow the progress of each phase and receive up-to-date project information, including allowable work hours, on our new and interactive web portal at DominionEnergy.com/tysons.

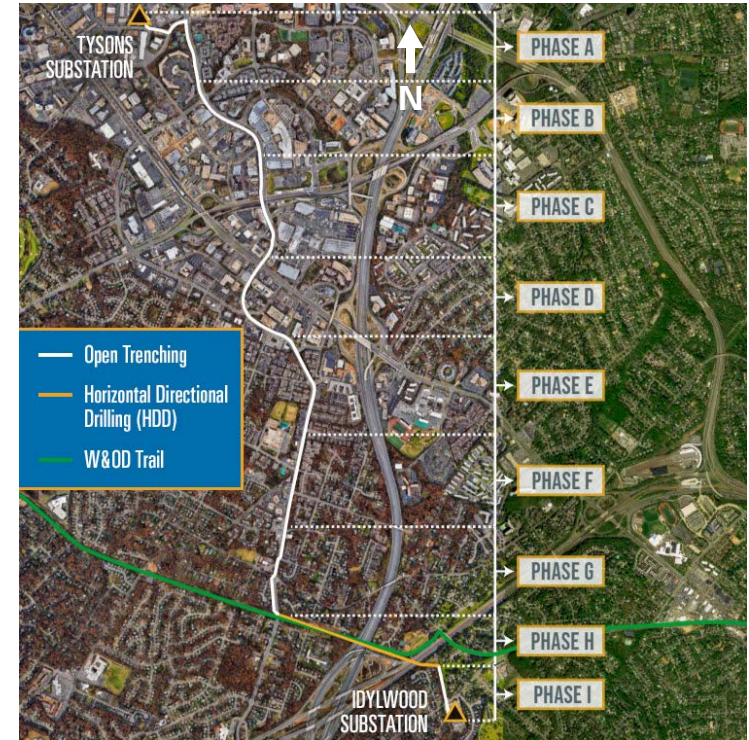

In addition, we want to inform you that in the wake of ongoing public health concerns from the spread of the coronavirus, we are mindful of our activities and maintaining property owner interactions with the appropriate social distancing. The work we do is integral to maintaining grid reliability and our crews will continue to perform work as needed to provide reliable energy.

Thank you for your patience as we work to complete this important project.

CONTACT US

Visit our website at DominionEnergy.com/tysons for project updates. Or contact us by sending an email to powerline@dominionenergy.com or calling 888-291-0190.

WE CARE ABOUT OUR COMMUNITY and are doing everything we can to help make a difference during these unprecedented times. Currently, we are suspending all distribution disconnections and late fees. To ensure customers manage their outstanding bill amounts, we ask that you continue to pay your Dominion Energy power bill as you have been, if able. If you are unable to pay due to current financial difficulties, please visit DominionEnergy.com for 24/7 convenient access or call 866-366-4357.
