Dominion Energy Reconductors Along the W&OD Trail in Loudoun County

AT DOMINION ENERGY, we are committed to providing the latest information to the communities we serve. You are receiving this postcard to update you on our projects along the W&OD Trail in Loudoun County, Virginia.

We have replaced wires, a process known as reconductoring, ahead of schedule. This spring, work occurred near W&OD Trail Mile Markers (MM) 24 to 26 (between Smith Switch Road and Pacific Boulevard), and 28 to 31 (from near Claiborne Parkway to near Crosstrail Boulevard).

As part of these reconductor projects, we rebuilt structures between our Pleasant View Junction and Cochran Mill Substation, and replaced four structures near our Beaumeade, Buttermilk, and Paragon Park substations.

This summer, we will continue to restore the area. Throughout the year, we will monitor vegetation rehabilitation. Crews will plant low-growth, native species in targeted locations along the trail.

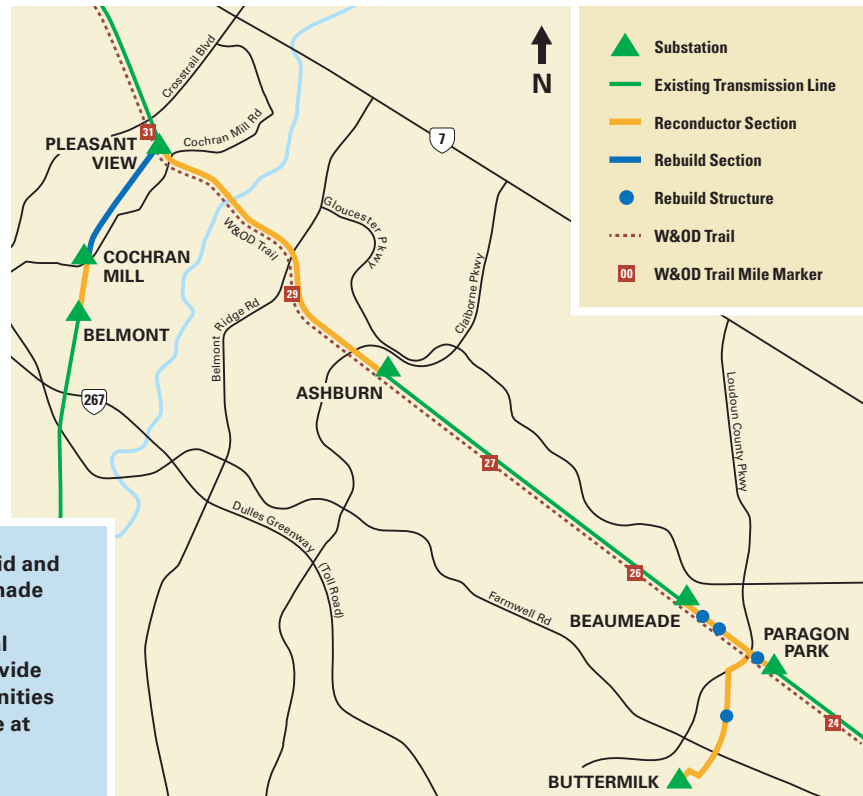

Thank you for your patience while we completed these important reliability projects.

Visit our websites at [DominionEnergy.com/Belmont](https://www.dominionenergy.com/Belmont) and [DominionEnergy.com/Buttermilk](https://www.dominionenergy.com/Buttermilk) for project updates. Or contact us by sending an email to powerline@dominionenergy.com or calling 888-291-0190.

AT DOMINION ENERGY, protecting the grid and making it secure against natural and man-made acts is a top priority. We work alongside government officials to prepare for potential incidents that could affect our ability to provide electricity safely and reliably to the communities we serve.
