# Join Us at a Community Meeting

## Nebula-Raines 230 kV Electric Transmission Line Project

At Dominion Energy, we are committed to keeping the communities we serve informed of projects in their area. On July 17, 2024, we held our first community meeting for the Nebula-Raines 230 kV Electric Transmission Project where we heard your feedback. We have incorporated this input into our project planning, and multiple routes are being evaluated. We will submit one proposed route with alternatives to the Virginia State Corporation Commission (SCC) for final evaluation and approval later this year.

MORE

Before the application is filed, we invite you to attend a second community meeting on Wednesday, August 28, 2024. Our subject matter experts will be available to answer your questions and photo simulation boards will be on display. We look forward to your attendance and will continue to engage the community in our project development.

Also, we welcome you to explore the Nebula-Raines Interactive Map. Please follow the QR Code to view. This tool allows you to:

- Toggle area projects on/off
- Zoom in on areas that matter to you, or search your address
- Compare photos of existing and proposed conditions along each proposed route

*This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.*

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at [powerlines101.dominionenergy.com](https://powerlines101.dominionenergy.com).

## MEETING DETAILS

Wednesday, August 28, 2024  
5:00 p.m. to 7:00 p.m.

The Dogwood Event Venue  
313 Franklin Street  
South Hill, VA 23970

Potential  
routes

Infrastructure  
upgrades
