

# Philanthropy

**Dominion Energy strives to improve the physical, social and economic well-being of the communities we serve.**

- We view charitable giving as an integral aspect of good corporate citizenship and an opportunity to engage and support the communities we serve in ways that align with our business interests.

We annually award funding to causes that:

- Protect the environment
- Promote education
- Help meet basic human needs
- Support community vitality

**We volunteer more than 100,000 hours every year in our communities.**
