## Twin Creeks to Apollo 230 kV Electric Transmission and Substation Project

At Dominion Energy, we are committed to continually reviewing and analyzing our energy infrastructure to provide safe, reliable electricity to our neighbors. You are receiving this postcard to update you on the Twin Creeks to Apollo 230 kV Electric Transmission and Substation Project. This project involves constructing a new double-circuit 230 kV transmission line approximately two miles long and connecting it to five new substations. This project will collocate with another project, Aspen to Golden, to limit potential impacts.

INFORMACIÓN

This project will help meet the area's growing energy demands, and we are preparing to submit our application to the Virginia State Corporation Commission (SCC) in early 2024. To learn more, please consider joining us at our community meeting on Tuesday, November 28, 2023, from 5:30 p.m. to 7:30 p.m. You will be able to speak to the project team directly and ask them questions about the project. There will not be a formal presentation, so please feel free to stop by any time during the meeting. Your continued involvement, participation, and input is essential in developing these projects.

*This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.*

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at [powerlines101.dominionenergy.com](https://powerlines101.dominionenergy.com).

## MEETING DETAILS

**Tuesday, November 28, 2023**

**5:30 p.m. – 7:30 p.m.**

**Belmont Middle School  
19045 Upper Belmont Place  
Leesburg, VA 20176**

*There will not be a formal presentation,  
so please feel free to stop by any time during the meeting.*
