Hathaway to Rocky Mount 230 kV Electric Transmission Line Rebuild Project

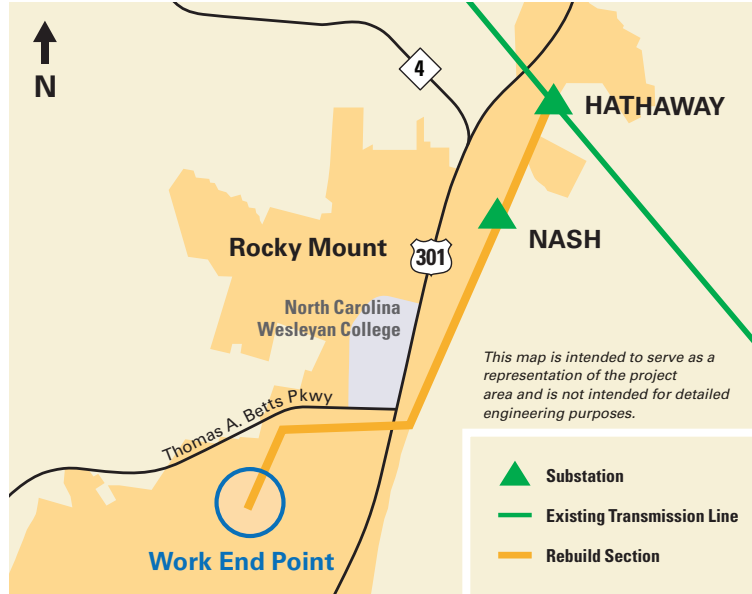

At Dominion Energy, we provide the reliable, affordable, and increasingly clean energy that powers your every day. You are receiving this postcard to update you on this project. To meet current electric standards and maintain reliable service, we rebuilt approximately 3.9 miles of an aging double-circuit electric transmission line in Nash County, North Carolina.

We are pleased to inform you that we have completed construction of our Hathaway to Rocky Mount 230 kilovolt (kV) Electric Transmission Line Rebuild Project.

In the coming weeks, construction equipment and access matting will be removed from the work area. Through summer and fall 2024, we will restore the right of way with grass or low-growth vegetation. We thank you for your patience while we completed this important reliability project.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
