Shawboro – Elizabeth City 230 kV Electric Transmission Line Rebuild

At Dominion Energy, we provide the reliable, affordable, and increasingly clean energy that powers your every day. To maintain reliable service for our customers, we are preparing to replace an aging 230 kilovolt (kV) electric transmission line between our Shawboro and Elizabeth City substations. This project spans approximately 10.3 miles in the North Carolina counties of Pasquotank, Currituck, and Camden.

Preconstruction activities, such as preparing access to the right of way, are planned for late June 2024. Construction is expected to start in late summer 2024 at our Shawboro Substation, progressing southwest to our Elizabeth City Substation in spring 2025. Right of way restoration will occur through summer and fall 2025.

To learn more about this upcoming work, we invite you to join us for a virtual community meeting. You will have the opportunity to have your questions answered by our project team.

We are dedicated to working safely and courteously in your community. Thank you for your patience while we complete this important reliability project.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
