Staunton-Harrisonburg 115 kV Electric Transmission Rebuild Project

Use your iPhone camera or the QR reader app on other smartphones to visit the project page on our website.

AT DOMINION ENERGY, we are committed to working safely and courteously in the communities we serve. You are receiving this postcard because we have important updates to the Staunton-Harrisonburg 115 kV Electric Transmission Line Rebuild Project in the city of Staunton and Augusta and Rockingham counties, Virginia.

Beginning in March 2021, construction will begin on phase 2 of the project from Verona-Weyers Cave. Crews will install temporary access roads and prepare the right of way for construction. Once this work is completed in fall 2021, crews will restore the area to its previous condition.

In addition, phase 1 of construction from Staunton-Verona is scheduled to be complete in May 2021. Crews will then remove the temporary access roads and restore the right of way.

Please know that we continue to be mindful of safety and social distancing guidelines in the wake of the coronavirus. We appreciate your patience and understanding while we complete this important project.
