A new substation will support your community

Walnut Creek Substation

At Dominion Energy, we are committed to providing safe and affordable energy in the communities we serve. You are receiving this postcard because we are preparing to build a new substation in Albemarle County, Virginia. This new facility, Walnut Creek Substation, will maintain electric reliability and comply with federal standards.

MORE

Walnut Creek Substation will connect to an existing 115 kilovolt (kV) electric transmission line in the area. In the coming weeks, you may see our crews on foot or in vehicles in the right of way or using access roads outside the right of way. Our team will be preparing the site for installation of our permanent substation.

We will continue to keep you updated as construction activities progress. Thank you for your patience as we work on this important reliability project.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

PROJECT TIMELINE (Tentative)

January – February 2025:
Preconstruction activities

Mid-February – Late December 2025:
Construction activities

April 2026: Area restoration begins
