## Western Chesterfield 230 kV Electric Transmission Improvement Project

At Dominion Energy, we are committed to providing the reliable, affordable, and increasingly clean energy that powers our customers every day. To support the area's growing energy needs, we are planning the Western Chesterfield 230 kV Electric Transmission Improvement Project. The project includes building a new substation and electric transmission corridor.

SCAN HERE TO LEARN MORE

We are currently reviewing route options and are seeking your input to help shape the final proposal before we submit it to the Virginia State Corporation Commission (SCC) in 2025.

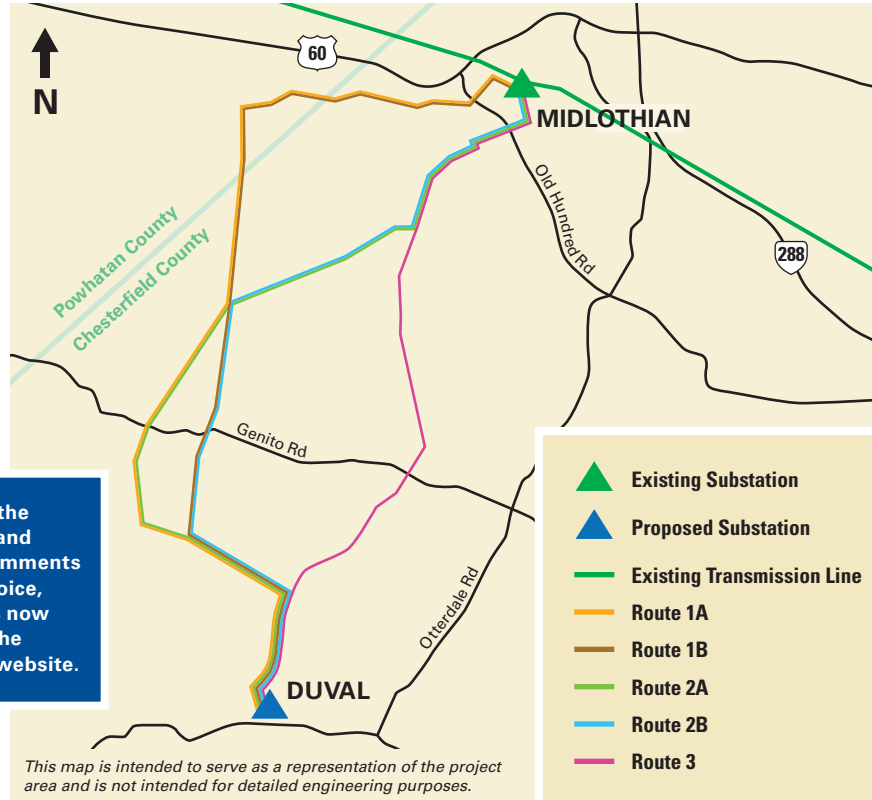

Our team is committed to listening to your feedback and incorporating community perspective. We encourage you to attend an upcoming community meeting to learn more about the project and provide input on our plans.

### UNABLE TO ATTEND? NO PROBLEM.

Here are other ways to engage with our team:

- We will host another meeting in the first quarter of 2025, once public input is received.
- Contact us and request a presentation be given to a smaller group in your community.
- View meeting content at your convenience on our project website.
- Contact us by email or phone to discuss the project.

We look forward to sharing more about the project and listening to your feedback as we move forward with project planning.

Review the project and leave comments in GeoVoice, which is now live on the project website.

# MEETING DETAILS

Thursday, October 24, 2024  
6:00 p.m. to 8:00 p.m.

Woolridge Elementary School  
5401 Timber Bluff Pkwy  
Midlothian, VA 23112

Presentation will begin at 6:15 p.m.
