Yadkin – Fentress Surveying Along Transmission Line Right of Way

At Dominion Energy, we are committed to keeping neighbors informed about projects in the communities we serve. You are receiving this postcard because we are proposing to rebuild an electric transmission corridor between our Yadkin and Fentress substations located in the City of Chesapeake, Virginia.

Starting in February, crews will be in the right of way surveying and gathering information in preparation for this project. As such, you may notice an increase in foot or light-duty truck activity in the right of way.

More details will be provided to you as activities progress. Thank you for your patience and understanding during this time.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

SURVEYING ACTIVITIES

FEBRUARY 2024

Crews will survey and inspect right of way
