## Yadkin-Fentress 500 kV Electric Transmission Line Project

At Dominion Energy, we provide the reliable, affordable, and increasingly clean energy that powers your every day. We are reaching out to you to inform you of some upcoming work that will be completed by helicopter.

MORE

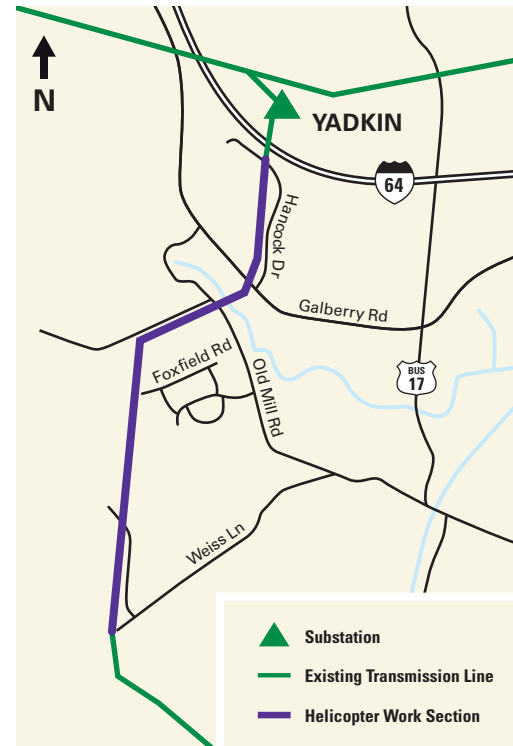

Between late May and July, we will use a non-Dominion Energy helicopter to help install new transmission lines and communication fiber on the transmission poles. Several flights will occur between Hancock Drive and Weiss Lane in the City of Chesapeake, Virginia.

The work will occur between 8:30 a.m. and 5:00 p.m. on Monday to Saturday. To ensure everyone's safety, temporary traffic interruptions will occur (less than five minutes at a time) when the helicopter pulls lines over the road. Traffic signs will be posted and flaggers or police will be present to temporarily stop traffic. Spotters will also be present on adjacent sidewalks and shared use paths.

For our neighbors who reside in close proximity to the work zone — we respectfully remind you to remain outside the right of way during helicopter work. Safety is our highest priority, and this is an active construction zone. Safety perimeters serve as reminders of the work zone boundaries and help keep you safe while we work overhead.

Flights are weather-dependent and subject to change. We appreciate your patience while we complete this work as quickly and efficiently as possible. We expect to finish construction in this section in late summer 2025, and we will restore the right of way with grass, low-growth vegetation, or wetland species. Please do not hesitate to connect with us if you have questions.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at [powerlines101.dominionenergy.com](https://powerlines101.dominionenergy.com).
