NAME
ADDRESS
CITY, STATE, ZIP

Dear Neighbor-

Dominion Energy recently started construction at the Madison Solar Facility. As a long-standing partner with Orange County, we want to make sure you are aware of the project and our plans to move forward.

The Madison Solar Facility project was purchased by Dominion Energy in 2020 and will be owned and operated by Dominion Energy. Madison Solar will be an 63MW facility encompassing approximately 650 acres in Orange County, located along State Route 20 in Locust Grove. Construction is expected to be completed in 2022.

This project is important to meeting the Commonwealth's and Dominion Energy's customer-focused clean energy goals and it will have a positive effect on Orange County's economy as we rely on locally-based suppliers and labor as much possible. Ultimately, the power produced will be used by Northrop Grumman to match 100% of its Virginia manufacturing and office operations' electricity use.

We look forward to working with Orange County and local neighbors as we move forward with this important project. Please contact Chad Major, the on-site Project Manager, at 804-357-4646 should you have any questions of concerns. You may also contact me at sarah.a.marshall@dominionenergy.com or 804-461-8642. Information may also be found at www.dominionenergy.com/madisonsolar.

Sincerely,

Sarah A. Marshall
