

Dominion Energy North Carolina (DENC) Rider REPS Opt Out Form

Date _____

DENC has established Riders RP and RPE to recover the costs of compliance with the requirements of G.S. 62-133.8 and Commission Rule 8-67.

Dominion Energy North Carolina's renewable energy cost recovery rider is not applicable to agreements for the Company's Outdoor Lighting Rate Schedule 26, Traffic Control Rate Schedule 30T, Schedule 1W, Schedule 1DF, Schedule 7 or an auxiliary account. An auxiliary account is defined as non-demand metered service, located at the same premise, with the same service address, and with the same customer account name as an account for which a monthly REPS charge has been applied (i.e., house with a separate garage). Customers meeting the "auxiliary service" criteria will be charged only a single monthly REPS charge at the customer's primary metered service.

The purpose of this form is to allow customers that have a qualifying "auxiliary" service account(s) the opportunity to opt out of the North Carolina Renewable Energy and Energy Efficiency Portfolio Standard (REPS) cost recovery riders.

Primary Account or Meter Number (house or main business) _____

Please opt out the following auxiliary service accounts from Rider REPS (shown on the bill as Riders RP and RPE):

	Customer Name	Service Address	Account No. or Meter No.
1			
2			
3			
4			
5			

(Please add additional sheets to include more accounts, if necessary, using the same format).
