

Schedule RAR
RESIDENTIAL APPLIANCE RECYCLING PROGRAM

I. PURPOSE

The purpose of the Residential Appliance Recycling Program is to provide residential customers with an incentive to recycle freezers and refrigerators that are of specific age and size. Appliance pick-up and proper recycling services are included. This Program will reduce participants' total energy bills as well as the amount of energy required throughout the year on the Company's system. Additionally, customer participation in the Program will provide capacity reductions during the Company's peak demand periods.

II. AVAILABILITY

This Program is available to residential customers in the Company's North Carolina service territory. Participation in this Program is strictly voluntary.

The Company and its program implementation vendor will use various marketing tactics to promote the Program, such as providing program information on the Company's website, its social media outlets, bill inserts and cross-promotion through the Company's other DSM programs.

III. INCENTIVE PAYMENTS

As modeled, the Program provides eligible customers with an incentive of \$20 per new participant.

Rebate applications must be submitted within 45 days of the service date. Upon receipt of a completed rebate application, Dominion Energy North Carolina will process the completed application, confirm or inspect the installation, and forward the incentive payment to the customer within 90 days, unless the customer requests the payment go to the contractor. The Company reserves the right to withhold any rebate payment until the customer has satisfactorily completed the application process. Dominion Energy North Carolina and/or its designees including program administrators and evaluation contractors reserve the right to review installations to verify completion and measure energy savings to ensure compliance with all program requirements. Such reviews will be made at a time convenient to the applicant.
