

RATE SCHEDULE NO. 180

INTERRUPTIBLE TRANSPORTATION SERVICE
FOR CUSTOMERS QUALIFYING FOR SERVICE ON RATE SCHEDULE NO. 150

Interruptible transportation Service under this Rate Schedule may be offered to a large commercial or industrial Customer that is presently connected to Company's system, has qualified for Service on Rate Schedule No. 150, has obtained an independent supply of Gas, has made arrangements to have Gas delivered to the City Gate through an authorized pooler designated by Customer, and has made accommodation for the installation of telemetry for the purpose of daily measurement readings. All transportation under this Rate Schedule is provided in accordance with Company's Transportation Pooling Agreement, as may be revised from time to time.

Once a qualified Customer elects Service under this Rate Schedule, Service will be provided for a term extending through the following August 31. Subject to the consent of Company, Customer may elect to discontinue Service under this Rate Schedule and receive Service from Rate Schedule No. 150 by giving written notice to Company prior to June 1 of any year. Company will grant such consent if it has, or is able to acquire under commercially reasonable terms and conditions, the necessary Gas supplies and capacity to provide Service to Customer under Rate Schedule No. 150. Proper notice having been provided and consent obtained, Customer shall discontinue Service under this Rate Schedule effective the following September 1.

Customer may switch between this Rate Schedule and Rate Schedule No. 175 one time during any twelve-month period provided that Company's consent is obtained before Customer may switch to Service under Rate Schedule No. 175. Company will grant such consent if it has, or is able to acquire under commercially reasonable terms and conditions, the necessary Gas delivery capacity to provide Service to Customer under Rate Schedule No. 175.

Gas transported under this Rate Schedule shall be separately measured from Gas purchased or transported under any other Rate Schedule. Neither separate Accounts nor separate locations may be combined to qualify for the minimum quantity provision of this Rate Schedule.

Service under this Rate Schedule is subject to review and possible reclassification to a different Rate Schedule pursuant to Rider B of this Tariff.

Rate

The applicable monthly Facilities Charge and the applicable Transportation Charge are set forth in the currently effective Summary of Rates and Charges of this Tariff and are incorporated herein by reference. Rates expressed in Therms in the Summary of Rates and Charges may be converted to Dekatherms prior to billing. Bills under this Rate Schedule are subject to the Integrity Management Tracker set forth in Rider E of this Tariff.

When Customer has the installed and operable capability to burn an alternate fuel and the equivalent alternate fuel cost is less than the combined cost of Gas received from Customer's independent supply and the Transportation Charge applicable under this Rate Schedule, Customer may be served under Rate Schedule No. 165. In order to receive Service under Rate Schedule No. 165, Customer must maintain separately metered Accounts for each type of alternate fuel.

The minimum monthly bill is the Facilities Charge. The Facilities Charge will be waived in any month when Company is unable to deliver any Gas during that billing month. Service under this Rate Schedule is subject to Rider A of this Tariff.

Payment of Bills

Bills are due and payable upon receipt and become past due 15 days after the billing date. Late payment charges will be added to the total balance in arrears on the next billing date. A charge will be imposed for checks and drafts returned to Company. Reconnection charges will be made to restore Service for: (a) Customers whose Service was discontinued for nonpayment of bill or (b) Customers whose Service was discontinued and reconnected at the request of Customer at the same Premises within 12 months after discontinuance.

The charges above are set forth in the currently effective Summary of Rates and Charges of this Tariff under the heading of Miscellaneous Fee Schedule and are described in the Service Regulations.

RATE SCHEDULE NO. 180 (Continued)

Balancing of Transportation Quantities

At any time when Customer is consistently using more or less Gas than is being delivered to Company for Customer's Account, it shall be Customer's or its agent's responsibility to bring its supply and requirements into balance in accordance with Company's Transportation Pooling Agreement, as it may be revised from time to time. Customer, Customer's agent, and Company shall strive to keep the transportation quantities within a reasonable operating balance at all times. Customer or its agent shall notify Company immediately in the event of increases or reductions in the quantity of Gas being transported.

Inability to Obtain Independent Supply of Gas

In the event Customer is unable to obtain its independent supply of Gas, Company may, at its sole discretion, supply Gas to Customer. The Energy Charge for such Gas will be the Rate Schedule No. 150 Energy Charge set forth in the currently effective Summary of Rates and Charges of this Tariff; provided that, when Company is required to purchase incremental quantities of Gas to accommodate Customer's supply requirements, the Energy Charge shall be calculated on a daily basis as the higher of: (a) the Rate Schedule No. 150 Energy Charge or (b) the sum of the daily commodity cost of Gas supplied and the Rate Schedule No. 180 Transportation Charge. The daily commodity cost of Gas shall be the absolute high price for the day of consumption as published in Gas Daily in the "Daily price survey," "Citygates," "Transco, zone 5 delivered," "Absolute," high end of the range. For days of consumption when Gas Daily is not published, the daily price published by Gas Daily on the nearest subsequent day shall be used.

Curtailment

Although not required to maintain alternate fuel capability in order to receive Service under this Rate Schedule, Customer exclusively bears all business, operational, mechanical, or other risks associated with the interruption or curtailment of Service. Company may require curtailment of Service for any reason it deems necessary or appropriate. Customer must be capable of being 100% curtailed on two hours' notice. In case of non-compliance with a curtailment order, Company shall have the right to valve off Service when necessary, in Company's sole opinion, to protect Service to higher margin Customers.

Notice of a curtailment is effective when issued and posted on Company's electronic bulletin board. Customer shall provide Company with the names, titles, telephone numbers, and email addresses of at least two representatives authorized by Customer to receive curtailment notices and shall promptly notify Company of any changes to such information.

Unauthorized Gas

Emergency Service under Rider A of this Tariff shall be available to Customers served during any curtailment period, up to a maximum of 10 Dekatherms per day, at the rate for Emergency Service set forth in the currently effective Summary of Rates and Charges of this Tariff plus the cost of Gas used, as calculated under Rider A of this Tariff. Emergency Service above 10 Dekatherms per day may be available to Customers at Company's sole discretion, and upon prior written notification and approval. If Company does not authorize Emergency Service above 10 Dekatherms per day, and a Customer fails to discontinue the use of Gas after two hours' notice that Gas under this Rate Schedule is not available, all Gas so used shall be paid for by Customer at the rate for Unauthorized Gas set forth in the currently effective Summary of Rates and Charges of this Tariff plus the cost of Gas used, as calculated under Rider A of this Tariff. In addition, Customer shall reimburse Company for any expenses or liabilities imposed on Company that are caused by Customer's failure to discontinue use of Gas, including but not limited to any incremental charges, assessments, or penalties imposed by an upstream interstate pipeline and the cost of any Gas used or purchased by Company during the day of Customer's failure to the extent that the cost of such Gas per Dekatherm exceeds the cost of Gas calculated under Rider A.

RATE SCHEDULE NO. 180 (Continued)

Rules and Regulations

Service under this Rate Schedule is subject to all lawful orders, rules, and regulations of duly constituted governmental authorities having jurisdiction over either Company or Customer, or both, including any orders of the Commission requiring Company to curtail or discontinue Service hereunder or setting priorities for such curtailment or discontinuance of Service. Company shall not be liable for any damages that may result to Customer or any other person, firm, or corporation by reason of Company's curtailing Service in accordance with any order by a duly constituted governmental authority or in accordance with any order of priorities which may be deemed practicable under existing conditions by Company. Service under this Rate Schedule is subject to the Service Regulations, which are incorporated herein by reference.
