

Electric Rates Change

Energy Saver/Conservation Rate 6 is designed to reward residential customers who build or upgrade their homes to high efficiency standards, as prescribed by the Council of American Building Officials Model Energy Code. These standards are subject to change and affect ceilings, lighting, walls, floors, windows, doors, ducts, attic vents, water heaters, air conditioning, chimneys, and fireplaces.

Air conditioning standards may also be impacted by federal or state mandated energy codes. The most recent update for this requirement affects all homes permitted on or after January 23, 2006, which results in a current SEER rating of 14 or higher to qualify for service under Rate 6. This rating is subject to change as energy codes are updated or revised.

Visit DominionEnergySC.com/Rate6 to obtain complete details about qualifications and the application process. You may also obtain details at any Dominion Energy South Carolina business office location.

Rate 6 Residential Service Energy Saver/Conservation Rate

*Effective for bills rendered on and after
the first billing cycle of May 2020.*

Rate Per Month

	Summer (Billing Months June-September)	Winter (Billing Months October-May)

Plus Energy Charge		
First 800 kWh @	\$0.11201 per kWh	\$0.11201 per kWh
Excess over 800 kWh @	\$0.12347 per kWh	\$0.10745 per kWh
Renewable Energy Resources	\$1.00	\$1.00

A Tax Rider reduction of 3.07% will be applied to the charges noted above.

Electric Rates Change

The Public Service Commission of South Carolina ("PSC") approved changes to Dominion Energy South Carolina ("DESC") retail electric rates. The net effect of these adjustments is that there will be a decrease to retail electric rates, however, bill impacts will vary depending upon each customer's class of service and usage characteristics. The changes were pursuant to: 1) a decrease in the Company's retail electric total fuel cost factors; 2) an increase to the Company's Demand Side Management Component; and 3) a decrease to the Company's Pension Costs Component. These changes will become effective for bills rendered on and after the first billing cycle of May 2020.

The monthly Renewable Energy Resources account charges, implemented in 2016 to recover costs and incentives associated with the implementation of Renewable Energy Resources in South Carolina, increased for small and medium general service customers and remained constant for all other classes. These charges cannot exceed \$1 per month for residential customers, \$10 per month for commercial customers, and \$100 per month for industrial customers, in compliance with the Distributed Energy Resources Program Act of 2014.

The approved Rate 6 and Rate 8 for residential service is provided. Rates for other classes of customers may be obtained by visiting DominionEnergySC.com/rates or by contacting a Dominion Energy office.

Rate 8 Residential Service

*Effective for bills rendered on and after
the first billing cycle of May 2020.*

Rate Per Month

	Summer (Billing Months June-September)	Winter (Billing Months October-May)
