

LETTER IN-LIEU OF ELECTRICAL INSPECTION

(May *ONLY* be used where the authority having jurisdiction is not under the authority of the South Carolina Building Code Council)

Customer or Project Name: _____

Service Address: _____

City / Town: _____

IMPORTANT NOTICE

It is the customer's responsibility to ensure that all facilities on the customer's side of the point of delivery of electricity are maintained in safe operating condition. This responsibility includes ensuring that the customer's electrical facilities comply with all local construction codes and safety standards. Customers should coordinate this responsibility with their architectural and engineering consultants, construction contractors, or subcontractors, as appropriate, before their electrical systems are energized. Failure to do so may result in injury or damage resulting from unsafe conditions. Dominion Energy is not responsible for unsafe or non-compliant conditions on the customer's side of the service point.

Customer's Certification of Readiness

The undersigned customer (or authorized representative) does hereby certify to Dominion Energy that he has confirmed to the best of his knowledge that the electrical systems do in fact comply with all local construction and safety standards and requests Dominion Energy energize subject facilities.

If not the owner/customer, I certify that I have the owner/customer's permission to act in his stead.
