RIDER TO RATE PR-1 (EXPERIMENTAL)

NET METERING FOR RENEWABLE ENERGY FACILITIES (Page 1 of 2)

AVAILABILITY

This rider is available in conjunction with the Company's Small Power Production, Cogeneration Rate PR-1, and will be limited to the first 50 customers applying for this service. It is only applicable to customers operating a generation source in parallel with the Company's system, while also receiving concurrent electric service from the Company under an approved retail rate schedule. This customer generation source will be located on the Customer's side of the delivery point, and shall not exceed the lesser of the estimated maximum annual kilowatt demand or 20 kilowatts for a residential customer or the lesser of the estimated maximum annual kilowatt demand or 100 kilowatts for a non-residential customer. This rider is only available for the following renewable energy sources: solar photovoltaic, wind-powered, biomass-fuel, or micro-hydro generation. The customer may not use batteries as a qualifying source of energy. The customer's generation equipment as referenced above must be manufactured, installed, and operated in accordance with governmental and industry standards and must fully conform with the Company's "Standard for Interconnecting Small Generation 100 I(JN or Less with Electric Power Systems." Standby service, if required, shall be provided under the terms of the Company's Rate 15 Supplementary and Standby Service.

CHARACTER OF SERVICE

The applicable character of service is specific to the rate schedule that the customer receives service under.

RATE PER MONTH

The customer's rate shall consist of the following two components:

- 1. The charges under the electric rate schedule that the customer qualifies for and takes service under, which includes basic facilities charges, energy charges, and demand charges, if applicable.
- 2 The charges (or credits) as defined in the Company's Rate PR-1 for energy delivered to the Company, and demand if applicable.

MINIMUM CHARGE

The monthly minimum charge shall be the basic facilities charge for the customer's applicable rate schedule, any applicable demand charges, and the seller charge as listed on Rate PR-1.

METERING REQUIREMENTS

The Company will furnish, install, own, and maintain metering at the point of delivery for customers served under this Rider. This metering will measure the customer's monthly demand if required, and will also record independently the flow of electricity from the Company to the customer and from the customer to the Company as required by the Rate Per Month section above.

GENERAL PROVISIONS

- To qualify for this rider, the customer must receive electric service pursuant to one of the Company's approved retail rate schedules as described in the availability section above. The customer must also meet all other qualifications as outlined in the availability section above.
- 2 All provisions of the applicable rate schedules available in conjunction with this rider including, but not limited to Billing Demand, Determination of On-Peak Hours, Adjustment for Fuel Costs, Storm Damage Component, Sales and Franchise Tax, Payment Terms, and Special Provisions will apply to service supplied under this rider.
- 3. The customer must execute an "Application to Interconnect Small Generation 100 I(JN or Less" and an "Interconnection Agreement for Small Generation Less Than 100 I(JN" prior to receiving service under this rider. The agreement shall include the Company's "Standard for Interconnecting Small Generation 100 I(JN or Less with Electric Power Systems" that describes the conditions related to interconnection of the customer generation with the Company's electrical system.

SPECIAL PROVISIONS

The Company will furnish service in accordance with its standard specifications. Non-standard service will be furnished only when the customer pays the difference in costs between non-standard service and standard service or pays to the Company its normal monthly facility charge based on such difference in costs.

TERM OF CONTRACT

Contracts shall be written for a period of not less than one (1) year and shall be renewed for successive one (1) year periods. After the initial period, either party may terminate service under this rider by giving a sixty (60) day notice in writing. A separate contract shall be written for each meter at each location.

The Company reserves the right to terminate the customer's contract under this Rider at any time upon written notice to the customer in the event that the customer violates any of the terms and conditions noted herein, or if the customer operates the generation system and equipment in a manner that is harmful to the Company or any of its customers. The customer may also be responsible for any early cancellation costs, if applicable, at the time of such termination.

GENERAL TERMS AND CONDITIONS

The Company's General Terms and Conditions are incorporated by reference and are part of this rider.
