## **NOTICE OF TRANSITION TO THE DEFINITIVE INTERCONNECTION STUDY PROCESS**

Dominion Energy South Carolina (DESC) hereby issues written notice of intent to transition its South Carolina-jurisdictional and Federal Energy Regulatory Commission (FERC)-jurisdictional generator interconnection queues to the Definitive Interconnection Study Process.

This notice is being provided to all Interconnection Customers currently in the DESC interconnection queues that are eligible for the transition study processes as provided for in Section 3 of Appendix DESC CS of the South Carolina Generator Interconnection Procedures and in Section 7 of DESC's Large Generator Interconnection Procedures (LGIP), which is Attachment M to the DESC Open Access Transmission Tariff (OATT).

Eligible Interconnection Customers may elect to be studied under the applicable Transition Procedures by completing the following three steps by August 12, 2022, which is sixty (60) Calendar Days after this notice announcing the transition to the Definitive Interconnection Study Process:

1. Notify DESC in writing that you elect to be studied under the applicable Transition Procedures,
2. **Submit a "refreshed" Interconnection Request (and supporting documentation) via DESC's online PowerClerk program:** <https://desclargegen.powerclerk.com>, and
3. Meet all transitional readiness milestone requirements as provided for in the applicable Transition Procedures.

Any eligible project that does not complete the three steps above by August 12, 2022, will be withdrawn from the applicable generator interconnection queue.

DESC will host a general information meeting concerning the Transitional Cluster Study Process for eligible Interconnection Customers on June 13, 2022. An invitation for this meeting was delivered to the Interconnection Customer's primary contact on record on June 3, 2022. For additional questions regarding DESC's transition to the Definitive Interconnection Study Process, Interconnection Customers may direct inquiries to [SCElectricTransmission@DominionEnergy.com](mailto:SCElectricTransmission@DominionEnergy.com).

Regards,

**DESC Generation Interconnection Team**
