

EnergyWise for Your Business

Solutions and Incentives for Schools

Actions Speak Louder

Every year, K-12 school districts in the United States spend more than \$6 billion on energy—more than is spent on computers and textbooks combined.* EnergyWise for Your Business can help you identify opportunities to improve energy efficiency, provide valuable incentives to make project upgrades more affordable, and reduce energy costs so you can devote more resources to students and staff.

We offer a wide range of solutions and incentives to help you increase energy efficiency within your school system. Whether you're constructing a new building, conducting major renovations, retrofitting inefficient equipment or purchasing new equipment, EnergyWise for Your Business can help.

Eligible equipment may include:

- LED lighting
- Heating and cooling systems
- High-efficiency food service equipment
- Building Tune-Up

Some Facts About Energy Use in Schools

- Heating, ventilation and air conditioning account for about 36% of a school's total electric use, with lighting making up another 17%.**
- Nearly 30% of a school district's total energy use is used inefficiently or unnecessarily.*
- For K-12 schools, improving energy efficiency can reduce operating and maintenance costs, create a more comfortable environment for learning, enhance safety of students, faculty and staff, and demonstrate environmental and sustainability leadership.

Typical Electric Usage in Education Facilities

- HVAC
- Water Heating
- Lighting
- Cooking
- Refrigeration
- Office Equipment
- Other
 - Miscellaneous
 - Process Equipment
 - Motors
 - Air Compressors

EnergyWise for Your Business

Solutions and Incentives for Schools

Actions Speak Louder

Using the prescriptive approach offers predetermined incentives for a wide selection of proven energy efficiency technologies.

Prescriptive Program

Lighting*		
LED High-Bay Fixtures	LED Outdoor Flood or Canopy Fixtures	LED Wall-Mount Fixtures and Retrofit Kits
LED Troffers or Tube Replacement Lamps	LED Parking Lot Fixtures	Above Code New Construction Lighting*
ENERGY STAR® Certified Food Service Equipment		
Commercial Freezers	Commercial Fryers	Commercial Refrigerators
Commercial Convection Ovens	Commercial Hot Holding Cabinets	Commercial Steam Cookers
HVAC		
Air or Water Cooled Chillers	Unitary HVAC Systems	HVAC Variable-Speed Drives
Packaged Terminal Air Conditioner (PTAC)	Packaged Terminal Heat Pump (PTHP)	

Custom Program

Demand-Controlled Ventilation	Energy Management Systems	Building Tune-Up
Building Automation Systems	Variable Refrigerant Flow HVAC Systems	DC Power Management Systems

NOTE: Additional Prescriptive and Custom incentives (not listed above) are available. Please visit our website for further details.

**Lighting incentives are capped at 50% of total project cost, with the exception of New Construction Lighting.*

EnergyWise for Your Business incentives are limited, offered on a first-come, first-served basis and are subject to project and customer eligibility and funds availability. For each program year (Dec. 1 – Nov. 30), EnergyWise for Your Business incentive payments are capped per customer federal tax ID number at \$100,000 per project type. Project types include lighting, HVAC, food service and custom.

Most projects require pre-approval prior to purchasing and installation of equipment. Please check program requirements with the EnergyWise for Your Business team.
