

EnergyWise for Your Business

Solutions and Incentives for
Colleges and Universities

It's Business 101: Saving energy and money just makes good sense for schools. But there's more. Efficient energy use can also help improve the learning experience, reduce greenhouse gas emissions and create a more comfortable environment for your students, staff and faculty.

EnergyWise for Your Business offers a wide range of solutions and incentives to move you toward greater energy efficiency at your school. Whether you're constructing a new building, conducting major renovations, retrofitting inefficient equipment or purchasing new equipment, we're here to help.

Eligible equipment may include:

- Interior/exterior lighting and controls
- ENERGY STAR® kitchen equipment
- High-efficiency HVAC systems and equipment
- Building Tune-Up

Some Facts About Energy Use in Colleges and Universities

- Heating, ventilation and air conditioning account for about 36% of a school's total electric use, with lighting making up another 17%.**
- The nation's colleges and universities spend nearly \$14 billion on energy each year.** From residence halls and cafeterias to sports facilities and classrooms, colleges and universities are teeming with energy-saving opportunities.
- For higher education institutions, improving energy efficiency can reduce operating and maintenance costs, create a more comfortable environment for learning, enhance the safety of students, faculty and staff, and demonstrate environmental and sustainability leadership.

Typical Electric Usage in Higher Education Facilities

- HVAC
- Water Heating
- Lighting
- Cooking
- Refrigeration
- Office Equipment
- Other
 - Miscellaneous
 - Process Equipment
 - Motors
 - Air Compressors

EnergyWise for Your Business

Solutions and Incentives for
Colleges and Universities

Using the prescriptive approach offers predetermined incentives for a wide selection of proven energy efficiency technologies.

Prescriptive Program

Lighting*		
LED High-Bay Fixtures	LED Troffers or Tube Replacement Lamps	LED Outdoor Flood or Canopy Fixtures
LED Parking Lot Fixtures	LED Wall-Mount Fixtures and Retrofit Kits	LED Exit Signs
ENERGY STAR® Certified Food Service Equipment		
Commercial Steam Cookers	Commercial Fryers	Commercial Refrigerators
Commercial Convection Ovens	Commercial Hot Holding Cabinets	Commercial Freezers
HVAC		
Air or Water Cooled Chillers	Air-Source Air Conditioner	Air-Source Heat Pump
Packaged Terminal Air Conditioner (PTAC)	Packaged Terminal Heat Pump (PTHP)	HVAC Variable Speed Drives

Custom Program

Demand-Controlled Ventilation	Energy Management Systems	Building Tune-Up
Building Automation Systems	Variable Refrigerant Flow HVAC Systems	DC Power Management Systems

NOTE: Additional Prescriptive and Custom incentives (not listed above) are available. Please visit our website for further details.

*Lighting incentives are capped at 50% of total project cost.

EnergyWise for Your Business incentives are limited, offered on a first-come, first-served basis and are subject to project and customer eligibility and funds availability. For each program year (Dec. 1 – Nov. 30), EnergyWise for Your Business incentive payments are capped per customer federal tax ID number at \$100,000 per project type. Project types include lighting, HVAC, food service and custom.

Most projects require pre-approval prior to purchasing and installation of equipment. Please check program requirements with the EnergyWise for Your Business team.
