

Benefits

- Reduced energy use and costs.
- A more pleasant environment for your employees and customers.
- We pay 90% of the cost, up to \$6,000, for recommended energy efficiency measures!

Eligibility

The program is available to small business and nonprofit customers with five or fewer electric service accounts and an annual energy use of 350,000 kWh or less, which includes a minimum of 12 months of service. For complete program eligibility, please see the Terms and Conditions found in the program's Participation Agreement.

EnergyWise for Your Business

With **Small Business Energy Solutions**, program contractors use local installers throughout the service area. If you prefer to select your own contractor, we also offer **EnergyWise for Your Business**, a program available to any size commercial, industrial, institutional and government customers. This program provides incentives for energy-efficient equipment installations – including other lighting and HVAC upgrades that can improve your bottom line.

Program Contractors

- LED Lowcountry
- Matrix Energy Services
- MSS Solutions

Small Business Energy Solutions

**Incentives up to
90% of cost**

for energy efficiency upgrades to lighting
and/or HVAC system improvements

Big Savings for Small Businesses

In today's competitive marketplace, small businesses must make every dollar count. Enhancing your business' energy efficiency is an effective way to reduce energy use and save money. It's one of the best investments you can make to reduce monthly expenses while enhancing customer comfort and workplace productivity.

Small Business Energy Solutions is a turnkey program tailored to help owners of small businesses manage their energy costs by providing incentives of up to 90% of the cost of energy-efficient lighting and/or HVAC system improvements.

How the Program Works

To start, simply contact us to schedule a free on-site energy analysis of your lighting and/or HVAC system. After the analysis, the contractor will provide a report outlining energy savings opportunities and associated costs. To proceed with the proposed upgrades, just sign a Small Business Energy Solutions Participation Agreement. Once the project is completed, you pay 10% and applicable taxes on material costs to the contractor and we pay the remaining 90%, up to \$6,000, to the contractor.

Key Features

- Free on-site energy analysis of your lighting and/or HVAC system.
- Simple, cost-effective options and easy-to-follow recommendations to help you manage your lighting and/or HVAC system-related expenses.
- Financial incentives that cover up to 90% (not to exceed \$6,000) of the total cost of most lighting and/or HVAC system retrofit projects.
- Fast return on investment.
- Local contractors to perform the work at your convenience.
- Removal and environmentally friendly disposal of equipment that was replaced or retrofitted.

Equipment Upgrades

Financial incentives can be applied to the following upgrades:

Lighting Measures:

- Retrofit or replacement of existing fluorescent lighting with high performance LED technologies.
- Replacement of non-LED exit signs to LED units.
- Installation of high-performance LED fixtures in place of existing high-intensity discharge fixtures.
- Installation of lighting controls (e.g., photocells, timers and occupancy sensors).

HVAC System Measures*:

- Advanced HVAC Tune-ups
- Smart Wi-Fi Thermostats**

** System tonnage will determine eligibility for each specific measure.*

*** Existing ENERGY STAR® certified thermostats may not be eligible for replacement.*
