

Snapshots of Success

Since 2010, Dominion Energy South Carolina has distributed over \$25 million in incentives through **EnergyWise for Your Business**, representing more than 3,800 energy efficiency project upgrades. A broad range of non-residential customers are benefiting from our programs, leveraging our incentives to help offset expenses associated with implementing some of the most advanced energy efficient technologies.

Regardless of whether your business is large or small, your success is tied to making every dollar count. Companies who make it their business to be more energy efficient find that it is a proven way for them to reduce their energy use and save money. EnergyWise for Your Business is designed to help you do just that. Through a variety of prescriptive and custom solutions, we're here to help you every step of the way.

"We are very pleased with the success of the EnergyWise for Your Business Program and remain committed to helping our customers find solutions to meet their energy needs. It is our hope that by sharing these "snapshots of success," more customers will learn about our program and the many benefits that come from participation. It all starts with a phone call and a free consultation to see how we can help."

EnergyWise for Your Business is available exclusively to Dominion Energy South Carolina non-residential electric customers. Some restrictions apply.

Snapshots of Success

"This is the third EnergyWise project I've worked on. By installing direct digital controls, we can better manage temperature settings which makes it easier to maintain the building's comfort. We've also been able to reduce our maintenance costs. The EnergyWise team made the process very easy. They were helpful and very responsive."

— Allen Stewart
Chief Building Engineer
Colliers International for Atrium Holdings, LLC

Atrium Holdings, LLC

A 6-story commercial building located in Columbia, Atrium Holdings offset the costs for upgrading their energy management system with HVAC controls with the help of Dominion Energy's incentives.

Project Type	HVAC Controls
Annual Energy Savings	460,000 kWh/year
Total Project Cost	\$177,000
Dominion Energy Paid	\$88,500
Estimated Cost Savings	\$24,500/year

522 Lady Street, LLC

Dominion Energy's incentives helped offset costs for a new HVAC system as part of extensive renovations to 522 Lady Street, a prime 29,000 square foot office space located in the heart of Columbia, formerly known as the old Columbia Cigar and Candy Store and Warehouse.

Project Type	HVAC System
Annual Energy Savings	147,707 kWh/year
Total Project Cost	\$494,000
Dominion Energy Paid	\$32,496
Estimated Cost Savings	\$19,200/year

"Through extensive renovations, we designed a state-of-the-art mechanical system to meet the needs of our tenants, while preserving the historical significance of the building. In doing so, we created an energy efficient system to meet all of our work environment needs. These incentives allowed us to significantly reduce the payback period and our annual energy cost."

— Allen Amsler
Managing Member
522 Lady Street, LLC

"The enhanced lighting levels provide a newer, clean architectural appearance and more pleasant experience traveling through the building. The upgrade has also contributed to an increase in our occupancy rate, enhanced our overall energy efficiency and has helped reduce our maintenance costs."

— Robert D. Fairey
Manager, Rivergate II, LLC
President, Trident Construction, LLC

Rivergate II, LLC

A 3-story office building located in Charleston, Rivergate II utilized Dominion Energy incentives to help offset costs to renovate and refresh the building's common areas with high efficiency lighting upgrades.

Project Type	LED Lighting/ Occupancy Sensors
Annual Energy Savings	127,400 kWh/year
Total Project Cost	\$74,000
Dominion Energy Paid	\$4,678
Estimated Cost Savings	\$7,500/year
