

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

I. APPLICABILITY AND AVAILABILITY

- A. This Schedule is a companion to Rate Schedule GS-3, Large General Service – Secondary Voltage and is applicable on an experimental basis in conjunction with Schedule GS-3 only to a Customer (i) who qualifies as a non-residential secondary voltage Customer (as defined in Paragraph XVII.); and (ii) who elects and who – as of the date of service for Customer under this Schedule – is receiving Electricity Supply Service and Electric Delivery Service from the Company under Schedule GS-3 at the Customer’s service location; and (iii) whose peak measured demand has reached or exceeded 5,000 kW during at least three (3) billing months within the current and previous 11 billing months at the Customer’s service location; and (iv) who has taken service from the Company for at least 12 consecutive billing months at the Customer’s service location; and (v) whose Monthly Load Factor at the Customer’s service location averages at least 85% for the current and previous 11 billing months, where such Monthly Load Factor is calculated in accordance with Paragraph XIII., below.
- B. This Schedule has closed to additional Customers. However, any Customer, who received service under this Schedule prior to the Closure Date, may continue to receive service in accordance with this Schedule until such Customer (i) selects an alternative, applicable Rate Schedule or (ii) discontinues service at the service location. In either case, this Schedule shall no longer be available at the Customer’s service location. Unless earlier terminated in accordance with Paragraph XX., below, this Schedule shall be withdrawn from service on December 31, 2022 and shall no longer be available to the Customer at the Customer’s service location. Upon such termination or withdrawal, the Customer shall select an applicable, alternative Rate Schedule.
- C. This Schedule is available only after all of the following criteria are met:
1. The Company has installed metering equipment that it deems to be necessary to measure properly the Customer’s demands and energy usage at the Customer’s service location; and
 2. If applicable, the Customer has installed and provided the Company with access to mutually agreed upon communication technology necessary for the Company to communicate with its metering equipment; and

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

I. APPLICABILITY AND AVAILABILITY (Continued)

3. The Customer has submitted to the Company a notarized *Officer Certification Affidavit for Rate Schedule MBR – GS-3* (“Affidavit”) which acknowledges that the Customer’s representative who signs such Affidavit is a duly authorized officer and understands the terms and conditions under which the Customer will be billed in accordance with this Schedule.
 4. The Company may require up to sixty (60) days after all of the criteria in Paragraph I.B., above, are met to provide service to the Customer under this Schedule.
- D. This Schedule, together with Schedule MBR – GS-4 (Experimental), is subject to a combined aggregate cap of 200 MW of participating Customer load served in accordance with Schedules GS-3 and GS-4, collectively. To determine whether a Customer can take service under this Schedule, the Company shall determine the aggregate load for both (i) the currently participating Customers on this Schedule and Schedule MBR – GS-4 (Experimental) and (ii) for the additional Customer requesting service under this Schedule. Such aggregate load shall be the sum of the loads for all such Customers (i.e., currently participating and additional Customers), based upon the higher of the Customers’ (i) actual peak measured demands at their service locations, during the current and previous 11 billing months immediately prior to the date of service for the additional Customer under this Schedule or (ii) the anticipated kW demands in the Customers’ load letters for their service locations, if applicable.

II. 30-DAY RATE

A. Distribution Service Charges

1. Basic Customer Charge
Basic Customer Charge \$112.58 per billing month.
2. Plus Distribution Demand Charge
All kW of Distribution Demand @ \$1.992 per kW

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

II. 30-DAY RATE (Continued)

3. Plus rkVA Demand Charge @ \$0.141 per rkVA
4. Plus Distribution kWh Charges
 - a. Distribution kWh Charge for All Customers
All kWh @ 0.0066¢ per kWh
 - b. Plus Distribution kWh Charge for Non-exempt Customers
All kWh @ 0.000¢ per kWh
5. Plus each Distribution kilowatt-hour used is subject to all applicable riders in the Exhibit of Applicable Riders, including non-bypassable charges.
6. Plus each kW is subject to all applicable distribution riders in the Exhibit of Applicable Riders, including non-bypassable charges. Such kW shall be either kW of Distribution Demand, determined pursuant to Paragraph III., below, or, if applicable, kW of On-Peak Electricity Supply Demand, determined pursuant to Paragraph X., below.

B. Market-based Rate Charges

1. Generation Demand Charge
All kW of Generation Demand @ Generation Demand Billing
Rate per kW
2. Plus Generation Energy Charge
All kWh @ Day-Ahead LMP per kWh
3. Plus PJM Ancillary Service Charges

Any reference to “PJM” in this Schedule means the PJM Interconnection, LLC (Pennsylvania-New Jersey-Maryland Interconnection, LLC), or any successor, that is the regional transmission organization and is part of the Eastern Interconnection grid that operates an electric transmission system.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

II. 30-DAY RATE (Continued)

- a. PJM Ancillary Service Charges for the current billing month, for which the Customer shall be charged, shall include all PJM ancillary service charges assigned to Customer's total monthly kWh energy consumption, which is grossed up for kWh losses (in accordance with the Schedule GS-3 Customer Class and consistent with the level at which the PJM ancillary service charges have losses applied), and where such PJM ancillary service charges are not already included in the Company's Schedule GS-3 Transmission kW Demand Charge and the Company's Rider T1 charge applicable to Schedule GS-3. Currently, PJM Ancillary Service Charges include – but may not be limited now or in the future to – Day-Ahead and Balancing Operating Reserves, Day-Ahead Scheduling Reserves, Reactive Service and Reactive Supply & Voltage Control, Black Start and Regulation & Frequency Response, Synchronized Reserves, and Synchronous Condensing Charges. In the event of any future change in PJM's process for determining ancillary service charges, including any modification as to which ancillary services are included, this ancillary service charge shall represent the similar or like charges for ancillary service determined by PJM.
- b. For PJM Ancillary Service Charges, the Company will determine for the current billing month a monthly rate in \$/kWh by taking such total monthly Dominion LSE ("DOMLSE") charges divided by total monthly DOMLSE kWh energy consumption (the "PJM Ancillary Service Charges Factor"). The Company will bill the PJM Ancillary Service Charges to the Customer based on the Customer's actual total monthly kWh energy consumption, grossed up for kWh losses, for the current billing month multiplied by the PJM Ancillary Service Charges Factor. The DOMLSE charges and total monthly DOMLSE kWh energy consumption represent those associated with the aggregation of the total jurisdiction and non-jurisdictional customers served by the Company in the Commonwealth of Virginia and the State of North Carolina.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

II. 30-DAY RATE (Continued)

4. Plus PJM Administrative Fees

- a. PJM Administrative Fees for the current billing month shall include all PJM administrative fees assigned to Customer's total monthly kWh energy consumption, which is grossed up for kWh losses (in accordance with the Schedule GS-3 Customer Class and consistent with the level at which the PJM ancillary service charges have losses applied), and where such PJM administrative fees are not already included in the Company's Schedule GS-3 Transmission Demand Charge and the Company's Rider T1 charge applicable to Schedule GS-3. In the event of any future change in PJM's process for determining administrative fees, including any modification as to what is being represented in the administrative fees, this administrative fees charge shall represent the similar or like charges for administrative fees determined by the PJM.
- b. For PJM Administrative Fees, the Company will determine for the current billing month a monthly rate in \$/kWh by taking such total monthly Dominion LSE ("DOMLSE") administration fee divided by total monthly DOMLSE kWh energy consumption (the "PJM Administrative Fees Factor"). The Company will bill PJM Administrative Fees to the Customer based on the Customer's actual total monthly kWh energy consumption, grossed up for kWh losses, for the current billing month multiplied by the PJM Administrative Fees Factor. The DOMLSE charges and total monthly DOMLSE kWh energy consumption represent those associated with the aggregation of the total jurisdiction and non-jurisdictional customers served by the Company in the Commonwealth of Virginia and the State of North Carolina.
- c. In the event that PJM assigns any new costs to the loads of the Company, which are not considered to be PJM Ancillary Services or PJM Administrative Fees, in the future for the Customer's total monthly kWh energy consumption, grossed up for kWh losses, during this Schedule's Term of Contract, pursuant to Paragraph XX., below, the Company and the Customer mutually agree that the Company shall bill and the Customer shall pay to the Company such new PJM costs. The Company shall include any and all such new PJM costs with the PJM Administrative Fees as described in this Paragraph II.B.4., above.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

II. 30-DAY RATE (Continued)

5. Plus Margin

- a. The Customer shall pay to the Company a Margin for each kWh of Customer's total monthly energy consumption during the current billing month.
- b. Such Margin for the current billing month shall be based on the Customer's Monthly Load Factor, which the Company will calculate in accordance with Paragraph XIII., below. The Customer's Monthly Load Factor at the Customer's service location shall determine the applicable Margin rate per kWh in accordance with the table below:

Customer's Monthly Load Factor	Margin Rate per kWh
>= 85%	\$0.001086
< 85%	[\$0.001086+ ((85 – Monthly Load Factor) * \$0.000047)]

- c. The Company shall disregard any Test Demand, as determined in Paragraph XIV., in calculating the Customer's Monthly Load Factor. In place of the Test Demand, the Company shall use the highest Non-Test Demand in the current billing month to determine the Customer's Monthly Load Factor.

C. Electricity Supply (ES) Service Charges

1. Transmission Demand Charge
All On-Peak ES kW @ \$ 2.277 per kW
2. Plus each kW of On-Peak Electricity Supply Demand, determined pursuant to Paragraph X., below, is subject to all applicable transmission riders, included in the Exhibit of Applicable Riders.
3. Plus each kWh of Electricity Supply Energy, determined pursuant to Paragraph XI., below, is subject to any Commission approved charges that are non-bypassable under Virginia law, included in the Exhibit of Applicable Riders, unless the Customer meets the statutory requirements for exemption for such charges.
4. Plus each kW of On-Peak Electricity Supply Demand, determined pursuant to Paragraph X., below, is subject to any Commission approved charges that are non-bypassable under Virginia law, included in the Exhibit of Applicable Riders, unless the Customer meets the statutory requirements for exemption for such charges.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

II. 30-DAY RATE (Continued)

D. As this Schedule is a companion schedule to Schedule GS-3, the Total Charges billed to the Customer by the Company for services under this Schedule shall be equal to the Total Schedule GS-3 Charges plus the Net Market-based Rate Charges, as described more fully below.

Where:

1. Total Schedule GS-3 Charges shall be equal to the higher of the following:
 - a. The sum of the following:
 - i. Schedule GS-3 Distribution Service Charges (see Paragraph II.A. of Schedule GS-3), which include all applicable riders; plus
 - ii. Schedule GS-3 Electricity Supply Service Charges (see Paragraph II.B. of Schedule GS-3), which include all applicable riders; or
 - b. The minimum charge shall be as may have been contracted for prior to January 1, 2022 or may be contracted for pursuant to the Terms and Conditions for the Provision of Electric Service, Section XXII.Q.
2. Total Schedule MBR - GS-3 Charges shall be equal to the higher of the following:
 - a. The sum of the following:
 - i. Distribution Service Charges, which include all applicable riders, in Paragraph II.A. of this Schedule; plus
 - ii. Market-based Rate Charges in Paragraph II.B. of this Schedule; plus
 - iii. Electricity Supply Service Charges, which include all applicable transmission riders and non-bypassable charges, in Paragraph II.C. of this Schedule; or
 - b. The minimum charge shall be as may have been contracted for prior to January 1, 2022 or may be contracted for pursuant to the Terms and Conditions for the Provision of Electric Service, Section XXII.Q.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

II. 30-DAY RATE (Continued)

3. Net Market-based Rate Charges shall be equal to the Total Schedule MBR - GS-3 Charges minus the Total Schedule GS-3 Charges.

III. DETERMINATION OF DISTRIBUTION DEMAND

- A. The Distribution Demand shall be billed only where the normal service delivery voltage is less than 69 kV.
- B. The Distribution Demand billed under Paragraph II.A.2. shall be the highest of:
 1. The highest average kW measured at the location during any 30-minute interval of the current and previous 11 billing months.
 2. 500 kW.
 3. For existing Customers served on this schedule where a minimum demand has not been contracted for but an increase in capacity has been requested and where the projected kW load is estimated to exceed 500 kW, the minimum demand shall not be less than 70% of the kVA capacity of the normal service transformer required to serve the Customer's projected load.
 4. For Customers served prior to January 1, 2022, and where there presently is a contracted minimum demand, the Customer will have the option to either (i) continue at the contracted minimum demand level until such time as the existing normal service transformer(s) requires replacement due to Customer load growth, at which time the minimum demand will be set per III.B.3., above, or (ii) immediately set the contract minimum demand per III.B.3., above.
 5. At the Customer's request, after 12 months of active service, in lieu of III.B.3. or III.B.4. above, the Customer has the option to execute an Agreement for Electric Service and pay a Monthly Facilities Charge for any excess facilities in accordance with Section IV.E. of the Terms and Conditions. For purposes of this provision, "excess facilities" shall mean such facilities as have been installed that are larger or more than necessary to serve the Customer. In the event the Customer selects this option, the determination of the Distribution Demand pursuant to Paragraph III.B. shall be the higher of III.B.1. or III.B.2., above.
- C. When the Customer's power factor at the Customer's service location is less than 85 percent, a minimum distribution demand of not less than 85 percent of the Customer's maximum kVA demand may be established.

IV. DETERMINATION OF rkVA DEMAND

The rkVA of demand billed shall be the highest average rkVA measured at the Customer's service location in any 30-minute interval during the current billing month.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

V. EXEMPTION PROVISION FOR DISTRIBUTION KWH CHARGE

The Distribution kWh Charge in Paragraph II.A.4.b., above, shall not apply to Customers who are exempt from such charge pursuant to Virginia Code § 56-585.1 A 5 c.

VI. DETERMINATION OF GENERATION DEMAND

- A. The Generation Demand billed in Paragraph II.B.1., above, shall be the higher of the following, which also shall be subject to adjustment for losses and reserves, as provided for in Paragraph VI.B., below:
1. The Customer's highest average 30-minute kW of demand measured by the Company during the current billing month ("Maximum kW of Demand"); or
 2. The Customer's contribution to PJM's peak load (currently the average of the five (5) coincident peaks ("5CPs") of the prior Summer) shall be determined in accordance with PJM's rules for the PJM Delivery Year ("Delivery Year") prior to the current Delivery Year. In the event of any future change in PJM's process for determining the Customer's contribution to PJM peak load, the Customer's contribution to PJM's peak load shall represent the similar or like method used by PJM for determining Customer's contribution to PJM's peak load.
- B. Such kW of demand determined in Paragraph VI.A., above, shall be grossed up for losses and reserves, which are applicable to the Customer's service location. Such losses and reserves shall be calculated by the Company and updated annually.
- C. The adjustment for losses in Paragraph VI.B., above, to the kW of demand determined in Paragraph VI.A., above, shall represent the Company's average distribution and transmission loss adjustment factor for providing capacity to serve a Schedule GS-3 customer's load.
- D. The adjustment for reserves in Paragraph VI.B., above, to the kW of demand determined in Paragraph VI.C., above, shall represent the Company's required reserves based upon the volumes procured and/or assigned to the Company's load by PJM, as defined by the underlying PJM structure for acquiring capacity for load in PJM. In the event of any future change in PJM's process for determining the Company's reserve requirement for load, the required reserves shall represent the similar or like method used by PJM for determining the Company's required reserves for acquiring capacity for load in PJM.
- E. The resulting kW of demand, determined in accordance with Paragraph VI. of this Schedule, shall be the Generation Demand.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

VII. DETERMINATION OF GENERATION DEMAND BILLING RATE

The Generation Demand Billing Rate for the current billing month shall be equal to the PJM Final Zonal Net Load Price in \$/MW-Day multiplied by the number of days in the current billing month and shall represent the price reflective of the cost to procure capacity in the PJM market to serve the Customer's Generation Demand at the Customer's service location. In the event of any future change in PJM's process for determining the price reflecting the cost to procure capacity for load in the PJM market to serve the Customer's Generation Demand, the Generation Demand Billing Rate shall represent the similar or like method used by PJM for determining the Generation Demand Billing Rate.

VIII. DETERMINATION OF GENERATION ENERGY

The Generation Energy billed in Paragraph II.B.2, above, shall be the Customer's total monthly kWh energy consumption for the current billing month grossed up for the appropriate distribution losses for a Schedule GS-3 customer.

IX. DETERMINATION OF DAY-AHEAD LMP

The Day-ahead LMP used to bill the Customer's Generation Energy in Paragraph II.B.2, above, shall mean the respective hourly PJM Day-Ahead Locational Marginal Price ("LMP") for the applicable PJM load zone, or any successor thereto, which includes the Customer's service location. In the event of any future change in PJM's process for determining the price reflecting the cost to procure energy in the PJM market to serve the Customer's Generation Energy, the Day-ahead LMP shall represent the similar or like method used by PJM for determining the Day-ahead LMP.

X. DETERMINATION OF ON-PEAK ELECTRICITY SUPPLY DEMAND

The kW of demand billed under Paragraph II.C.1, above, shall be the highest of:

- A. The highest average kW measured in any 30-minute interval of the current billing month during On-Peak hours.
- B. Seventy-five percent of the highest kW of demand at the Customer's service location as determined under Paragraph X.A., above, during the billing months of June through September of the preceding 11 billing months.
- C. 100 kW.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

XI. DETERMINATION OF ELECTRICITY SUPPLY ENERGY

The kWh of Electricity Supply Energy billed in Paragraph II.C.3., above, shall be the Customer's actual total monthly kWh energy consumption for the current billing month.

XII. DETERMINATION OF ON-PEAK AND OFF-PEAK HOURS

The following On-Peak and Off-Peak hours are applicable to the billing of the Electricity Supply Service Charges in Paragraph II.C., above.

A. On-Peak hours are as follows:

1. For the period of June 1 through September 30, 10 a.m. to 10 p.m., Mondays through Fridays.
2. For the period of October 1 through May 31, 7 a.m. to 10 p.m., Mondays through Fridays.

B. All hours not specified in Paragraph XII.A. are Off-Peak.

XIII. DETERMINATION OF MONTHLY LOAD FACTOR

The Company shall calculate the Customer's Monthly Load Factor for the current billing month at the Customer's service location, using the following formula:

$$\text{Monthly Load Factor} = \text{Total kWh} \div (24 * \text{Maximum kW of Demand} * \text{Days})$$

Where:

Total kWh = Customer's actual monthly total kWh energy consumption for the current billing month;

24 = 24 hours per day;

Maximum kW of Demand = the demand determined for the current billing month in accordance with Paragraph VI.A.1., above;

Days = the number of days in the current billing month.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

XIV. DETERMINATION OF TEST DEMAND AND NON-TEST DEMAND

- A. Periodically, the Customer may have to conduct equipment testing at the Customer's service location. Customer's equipment testing that may result in the establishment of an abnormally high average 30-minute peak measured demand ("Peak Demand") during one or more billing months at the Customer's service location. The Company will disregard the Peak Demand for the purposes of calculating the Customer's Monthly Load Factor and the Customer's Margin, in accordance with Paragraph II.B.5., above, for the current billing month when *all* of the following criteria are met:
1. Customer conducted the equipment testing at the Customer's service location; and
 2. The Customer's notification to the Company and conduct of the equipment testing were in accordance with the provisions of the *Customer's Equipment Testing Agreement*; and
 3. The Customer's Peak Demand was established during the date(s) and time(s) identified by the Customer on the "Official Test Schedule," which was submitted to the Company pursuant to the *Customer's Equipment Testing Agreement*; and
 4. The Company approved the Customer's Peak Demand to be a Test Demand, using the provisions of the *Customer's Equipment Testing Agreement*.

The Company shall disregard any Test Demand for the Customer only from the calculation of the Customer's Monthly Load Factor for the purposes of calculating the Customer's Margin during the current billing month.

- B. Using the Company's meter data records, the Company will determine the Customer's highest average 30-minute measured peak demand outside of the dates and times listed on the "Official Test Schedule" as the Customer's Non-Test Demand for the current billing month at the Customer's service location. The Company shall use the Customer's Non-Test Demand to calculate the Customer's Monthly Load Factor for the purposes of calculating the Customer's Margin, in accordance with Paragraph II.B.5., above.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

XV. METER READING AND BILLING AND PAYMENT

- A. If applicable, the Customer has installed and provided the Company with access to mutually agreed upon communication technology necessary for the Company to communicate with its metering equipment. Such communication technology shall be provided to the Company's metering equipment at the Customer's own expense.
- B. When the actual number of days between meter readings is more or less than 30 days, the Basic Customer Charge, the Distribution Demand Charge, the rkVA Demand Charge, the Transmission Demand Charge, and the minimum charge of the 30-day rate will each be multiplied by the actual number of days in the billing period and divided by 30. Billing and payment shall be made concurrent with billing under Schedule GS-3.

XVI. STANDBY, MAINTENANCE OR PARALLEL OPERATION SERVICE

A Customer requiring standby, maintenance or parallel operation service may elect service under this Schedule provided the Customer contracts for the maximum kW which the Company is to supply. Standby, maintenance or parallel operation service is subject to the following provisions:

- A. Suitable relays and protective apparatus shall be furnished, installed, and maintained at the Customer's expense in accordance with specifications furnished by the Company. The relays and protective equipment shall be subject, at all reasonable times, to inspection by the Company's authorized representative.
- B. In case the Distribution Demand determined under Paragraph III. exceeds the contract demand, the contract demand shall be increased by such excess demand.
- C. The demand billed under Paragraph II.A.2 shall be the contract demand.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

XVII. DEFINITION OF TRANSMISSION, PRIMARY AND SECONDARY VOLTAGE CUSTOMER

- A. A transmission voltage Customer is any Customer whose delivery voltage is 69 kV or above and is the voltage that is generally available in the area.
- B. A primary voltage Customer is any Customer (a) served from a circuit of 69 kV or more where the delivery voltage is 4,000 volts or more, (b) served from a circuit of less than 69 kV where Company-owned transformation is not required at the Customer's site, (c) where Company-owned transformation has become necessary at the Customer's site because the Company has changed the voltage of the circuit from that originally supplied, or (d) at a location served prior to October 27, 1992 where the Customer's connection to the Company's facilities is made at 2,000 volts or more.
- C. A secondary voltage Customer is any Customer not defined in Paragraph XVII.A. or Paragraph XVII.B. as a transmission or primary voltage Customer.

XVIII. CUSTOMER AUTHORIZATION

The Customer authorizes the Company to allow its Energy Supply personnel to have full access to the Customer's specific load, pricing, and any other necessary Customer specific information during the Term of Contract. Such authorization will allow the Company's Energy Supply personnel to support certain Company-specific activities resulting from Customer's participation on this Schedule.

XIX. PERIODIC REVISION OF RATES

The rates contained in this Schedule and in all the applicable riders for this Schedule are subject to change from time-to-time by order of the Commission. The rates for the currently-effective Rate Schedules and all the applicable riders are available on the Company's Internet website.

(Continued)

SCHEDULE MBR - GS-3
LARGE GENERAL SERVICE
SECONDARY VOLTAGE
(EXPERIMENTAL)

(Continued)

XX. TERM OF CONTRACT

- A. The term of contract for the purchase of Electric Service under this Schedule shall be as mutually agreed upon, but for not less than three (3) years. Any Customer electing to transition service to this Schedule shall remain on this Schedule for a minimum of three (3) years, continuing thereafter for additional one-year terms unless either the Company or the Customer provides the other party with written notice of termination at least sixty (60) days prior to the end of the then-current term.
- B. Notwithstanding the provisions of Paragraph XX.A., above, and after the conclusion of the Customer's initial three-year term under this Schedule, the Customer may renew this Schedule for service at the Customer's service location for only one additional one-year term after the Closure Date, pursuant to Paragraph I.B. of this Schedule.
- C. This Schedule shall be withdrawn from service on December 31, 2022 and shall no longer be available to the Customer at the Customer's service location.
