

Renewable Generation-How It Works

## **USAGE EXCEEDS GENERATION**

If your renewable energy system generates less electricity than your home or business uses, Dominion Energy will provide the additional electricity to meet your needs.

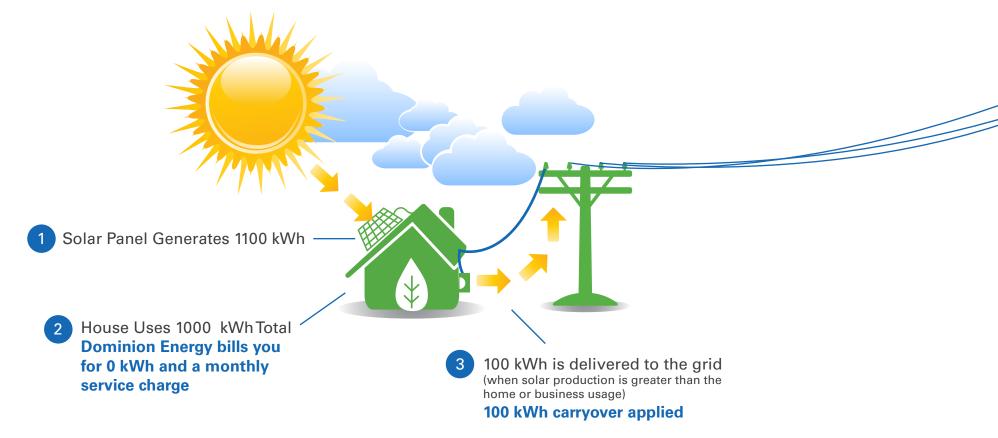

\*The numbers used above are for illustrative purposes. The amount of kWh generated by your system and kWh delivered to the grid will vary according to your generation size. The amount of kWh delivered to the grid will also vary according to your individual usage patterns. Please see the terms and conditions for further information. www.dominionenergy.com

**Renewable Generation-How It Works** 

## **GENERATION EXCEEDS USAGE**

When your renewable energy system generates more electricity than your home or business uses, the excess electricity is recorded by the meter as it flows back onto the grid and offsets future kWh provided by Dominion Energy.

\*The numbers used above are for illustrative purposes. The amount of kWh generated by your system and kWh delivered to the grid will vary according to your generation size. The amount of kWh delivered to the grid will also vary according to your individual usage patterns. Please see the terms and conditions for further information. www.dominionenergy.com
