

SCHEDULE RG
RENEWABLE GENERATION SUPPLY SERVICE

I. APPLICABILITY

- A. This Schedule is a companion to an approved applicable tariff, currently including the Company's Schedule GS-1, Schedule GS-2, Schedule GS-2T, Schedule GS-3, Schedule GS-4, Schedule 10, Schedule 27, or Schedule 28; and is applicable, on a voluntary basis, only to any Customer electing to receive Electricity Supply Service and Electric Delivery Service from the Company in accordance with such approved applicable tariff ("Principal Tariff") at the Customer's service location under a Company-assigned electric service account number.
- B. The planned supply of Renewable Generation under this Schedule must be purchased from a project or through a power purchase agreement with a size of no less than 1,000 kW in nameplate capacity.
- C. This Schedule is applicable only when (i) the Company and the Customer have fully executed the Customer Contract for the Purchase of Renewable Generation Pursuant to Virginia Electric and Power Company's Rate Schedule RG – Renewable Generation Supply Service ("Schedule RG Agreement"), which details the requirements associated with the Company's supply of Renewable Generation to be delivered to the electrical grid on behalf of the Customer from each renewable facility under this Schedule ("Renewable Facility" or, if applicable, "Renewable Facilities"); and, if applicable, (ii) the Company and a third-party Renewable Generation supplier have fully executed a Schedule RG Power Purchase Agreement ("Schedule RG PPA"), which addresses the terms of (a) the purchase of Renewable energy by the Company on behalf of the Customer, and (b) the delivery of Renewable Generation to the Company's electric grid from each Renewable Facility included in the Customer's Schedule RG PPA.
- D. The Customer commits to purchase up to 100 percent of the net Renewable Generation generated exclusively from a specified Renewable Facility(ies) under this Schedule RG in an amount up to 100% of the Customer's annual electrical energy load of the accounts for which this Schedule RG applies.

I. APPLICABILITY (continued)

- E. “Renewable Generation” shall mean electric capacity (kW) and/or energy (kWh) derived from Renewable energy sources as defined in Va. Code § 56-576. “Renewable energy” is defined in Section 56-576 of the Virginia Code to mean energy derived from sunlight, wind, falling water, biomass, sustainable or otherwise, (the definitions of which shall be liberally construed), energy from waste, landfill gas, municipal solid waste, wave motion, tides, and geothermal power, and does not include energy derived from coal, oil, natural gas, or nuclear power. “Renewable energy” also includes the proportion of the thermal or electric energy from a facility that results from the co-firing of biomass. “Renewable energy” does not include waste heat from fossil-fired facilities or electricity generated from pumped storage but includes run-of-river generation from a combined pumped-storage and run-of-river facility.

Renewable Generation sources shall be located within the footprint of and interconnected to PJM, which shall mean the PJM Interconnection, L.L.C. (Pennsylvania-New Jersey-Maryland Interconnection, L.L.C.), or any successor, that is the regional transmission organization and is part of the Eastern Interconnection grid that operates an electric transmission system. “Renewable Generation” shall include the Environmental Attributes associated with the Renewable Generation.

- F. “Environmental Attributes” shall mean other than the electric energy, ancillary services, or capacity benefit produced by the renewable generation facility, an aspect, claim, characteristic or benefit, howsoever entitled, associated with the generation of a quantity of electric energy by a Renewable Facility, other than the electric energy produced, and that is capable of being measured, verified or calculated. “Environmental Attributes” include Renewable Energy Certificates (“RECs”) but do not include federal, state and local tax credits or other incentives. “Renewable energy certificate” or “REC” shall mean the certificate or other transferable indicia created under the applicable program associated with one (1) megawatt hour (MWh) of electric energy generated by the applicable Renewable Facility.

II. AVAILABILITY

This Schedule is available only during the period of time that no more than 50 Customers have elected service under this Schedule. For the purposes of this Schedule, an individual Customer will be defined to include one entity contracting for service under this Schedule pursuant to one or more Schedule RG Agreement(s) and choosing to allocate such purchase across one or more accounts as set forth in Paragraph III.B below.

If no Customer is served under this Schedule on November 5, 2023 (the “Closure Date”), this Schedule shall be closed to new Customers on the Closure Date.

III. BILLING UNDER THE PRINCIPAL TARIFF

- A. For each Customer Account taking service under this Schedule, the Company shall continue to bill the Customer’s Account in accordance with the applicable Principal Tariff. In addition, the Company shall bill the Customer’s Account for the monthly charges and credits under this Schedule, in accordance with Paragraph IV, below, and the Customer’s Schedule RG Agreement.
- B. Upon the Customer’s written request, a single Customer can select two or more of the Customer’s own Accounts or Accounts under a common legal parent with agreement by such account owner for which the charges and credits from the Customer’s Schedule RG Agreement can be billed in accordance with this Schedule and in accordance with the terms of the Customer’s Schedule RG Agreement.

IV. MONTHLY SCHEDULE RG CHARGES AND CREDITS

A Net Schedule RG Settlement charge or credit for each Renewable Facility as described in the Customer’s Schedule RG Agreement will be added to the Customer’s monthly bill for service under the Principal Tariff pursuant to the agreed upon terms as described in the Customer’s Schedule RG Agreement.

V. TREATMENT OF RENEWABLE ENERGY CERTIFICATES

All renewable energy certificates (“RECs”) created by the Renewable Generation from the Renewable Facility or Renewable Facilities identified in the Customer’s Schedule RG Agreement shall be retired by the Company on the Customer’s behalf.

VII. TERM OF CONTRACT

- A. The term of contract under this Schedule (“Term”) shall commence upon all of the conditions being met in Paragraphs I and II of this Schedule and shall continue through and coincide with the term of any Schedule RG Agreement. For avoidance of doubt, such Term shall include the time from execution of any such Schedule RG Agreement through and until the time the term of such Schedule RG Agreement ends or such Schedule RG Agreement is otherwise terminated by either the Company or the Customer in accordance with the Schedule RG Agreement’s terms. In the event the Customer and the Company execute multiple Schedule RG Agreements to which this Schedule RG is applicable, the Term under this Schedule shall continue through and until the latest time the term of any such applicable Schedule RG Agreement ends or is otherwise terminated by either the Company or the Customer in accordance with the Schedule RG Agreement’s terms.
- B. The Customer agrees during the Term under this Schedule that the Company shall be the exclusive provider of Electric Service, including Electricity Supply Service, for the Customer’s Account(s) to which this Schedule RG applies. For avoidance of doubt, if (i) no Schedule RG Agreement has been executed or (ii) all applicable Schedule RG Agreements have ended or otherwise been terminated by either the Company or the Customer in accordance with such Schedule RG terms, Schedule RG shall not apply and Customer may choose any available and applicable Company Rate Schedule or provider of Electricity Supply Service.
