XXIII. TEMPORARY SERVICE

Upon request of the Customer, temporary service shall be supplied under the following conditions:

A. The Customer shall pay to the Company, prior to connection of the service, a Temporary Service Charge which, except as modified by Paragraphs XXIII.B. and XXIII.C., shall be the estimated net cost (including all applicable overhead costs) of installing and removing the service facilities furnished by the Company both on and off the Customer's premises, but in no case shall such charge be less than \$6.82 for a Residential Customer and \$25.15 for a Non-Residential Customer.

B. Temporary service shall be furnished at a future permanent service location in accordance with the following:

1. The charge for temporary service shall be the total of the items listed below:
  - a. The Temporary Service Charge shall be the net cost to the Company (including all applicable overhead costs) that is in excess of the cost of furnishing permanent service.
  - b. When primary lines and/or transformers are to be installed for supplying temporary service and the Temporary Service Charge does not include the cost of removing all such primary lines and/or transformers, the Customer shall pay the line extension charges (if any) for permanent service at that location.
2. Permanent underground and pad mounted facilities which operate at more than 600 volts normally shall not be installed to provide temporary service.
3. All provisions of the Company's tariff for the extension of permanent service facilities shall also apply to the permanent portion of any extension made in accordance with this Paragraph XXIII.B.

XXIII. TEMPORARY SERVICE (Continued)

C. When construction required to provide temporary service falls in one of the three categories outlined in Paragraphs XXIII.C.1., XXIII.C.2., and XXIII.C.3. below, the Customer may elect to pay, in advance of service connection, the associated flat charge for such a service. However, if the Customer requests the Company to prepare an estimate under either Paragraph XXIII.A. or XXIII.B., above, then the flat charge under this Paragraph XXIII.C. will not be applicable.

1. When the construction necessary to install the required service does not exceed that required to install a single-phase, three-wire, 200 ampere, 120/240V overhead service which is within 75 feet from an existing pole equipped with adequate secondary, the Customer may elect to pay a flat charge of \$471.24.
2. When the construction necessary to install the required service does not exceed that required to install a single-phase, three-wire, 200 ampere, 120/240V underground service which is within 36 inches of an existing adequate pad mounted transformer, the Customer may elect to pay a flat charge of \$309.38.
3. When the construction necessary to install the required service does not exceed that required to install a single-phase, three-wire, 200 ampere, 120/240V underground service which is within 36 inches of an existing adequate secondary or service stub-up, the Customer may elect to pay a flat charge of \$475.92.
